RUN MY WAY
— AUSTRALIA —

First of all - congratulations!

You are about to take the first step
in an exciting life changing
experience.

Welcome to Your Couch to 5k Run Plan

Your Couch to 5k Run Plan program is designed for anyone who wants
to get started running, get fit, lose weight or simply embark on a
healthy new lifestyle.

Running is a fantastic way to keep fit and has so many great health
benefits. It doesn't require costly equipment or expensive gym
memberships, can be done almost anywhere, and just about anyone
can do it.

Before You Get Started

Make sure you have read our article '[How to Go From Couch to Running 5k](#)' before you start, it contains important information that you need to
take into consideration before you start.

Remember, see you health care professional before you even take one
step, tell them what you are planning to do and get the all clear before
lacing up. We want you to enjoy this, not hurt yourself.

The Plan

This is a 10 week program.

You will run three days a week.

Each session is 30 minutes.

Some tips to help you enjoy the program and succeed in your end goal of running 5k non-stop

You don't have to run on the same day at the same time every week, just make sure you get in your three workouts, make it a non-negotiable must do.

Make sure you have a full days rest in-between each session.

If you find a particular session a little difficult or can't complete it, just repeat it until you can finish it. It doesn't matter if it takes you longer than 10 weeks, the important thing is that you successfully reach your end goal.

Use your smart/sports watch or phone to time each walk/run.

Remember to warm up and cool down. A brisk walk for a couple of minutes before each session will help, especially on cold days.

Don't forget to take some water with you. Remember to hydrate!

Print off each week of the plan as you progress and tick the star for each day as you complete the workout.

Let's get started, have fun, keep your eye on that end goal and let me know if you have any questions.

You have successfully completed
our 5k Run Plan

What to do now.

For most people, completing the 5k run plan is not only an awesome achievement, but it also marks a huge change in your life.

Whether it be improvements in your fitness, health, weight-loss or mental health, your new running lifestyle will transform you.

Thinking back to how you were when you first started, to how you feel now, it's a massive step forward. Brilliant effort!

Now that you can run 5k non-stop, it's time to think about where to go from here. Running 5k, three times a week with a rest day in-between each run, is a fantastic recipe for life-long fitness and health. If you have aspirations of longer distances, faster times, or even a race, the 5k run plan is just a start for you. Set your goals now and let's get started.

Congratulations again!
